SUMMARY

- **Over 2+ years** of IT experience which includes **2+** years of Extensive experience as a **React JS Developer**
- Extensive experience in developing web pages using **HTML, CSS, SASS, JavaScript, React JS, Redux, NextJS, TypeScript, Bootstrap.**
- Experience in all phases of **SDLC like requirement Analysis, Implementation and Maintenance,** and experience with **Agile** and **SCRUM.**
- Extensive knowledge in developing single - page applications (**SPAs**).
- Good experience on customizing **CSS frameworks** like **Bootstrap** and **Foundation** using **CSS** pre-processors **LESS** or **SASS** and Compass. ▢  
Expertise in **React JS** framework to develop the **SPA**.
- Proficiency in version control systems like **Git**
- Familiar with creating Custom Reusable **React Components Library.**
- Experience in seamless API integration connecting front-end applications with diverse back-end services through RESTful and GraphQL APIs to enhance functionality and deliver dynamic user experiences.
- Ability to work effectively while working as a team member as well as **individually.**
- Excellent communication and Inter-**Personal Skills, well organized, goal oriented**

CORE COMPENTENCIES

JavaScript (ECMA2015/ES6)	Typescript	React-Query
CSS (SASS/SCSS)/tailwindCSS	React Bootstrap	Jest/Enzyme
ReactJS	SQL	NextJS
Material-UI	Redux /RTK	NodeJS

EXPERIENCE

FRONTEND DEVELOPER

01/2022 – Present

Accenture

Client:

Accenture Internal Project

Role:

Software Engineer Analyst

- Development of a cutting-edge client portal, leveraging materialUI, to Showcase Comprehensive client data in a dynamic grid format.
- Crafted highly efficient functional-based components, harnessing the power of multiple hooks, to ensure multiple data and user experience.
- Played a pivotal role in collaborative design and code review session, collaborating closely with product managers and design and refine product technical requirements.
- Drove development efforts in React-Redux (Typescript) application. Offering robust solutions for managing complex data flow and orchestrating asynchronous API calls with Precision.
- Demonstrate proficiency in test-driven development by utilizing jest for testing and achieving comprehensive code and coverage.
- Innovatively designed and developed frontend components to meet project requirements while staying abreast of latest technology trend.
- Writing the other understandable code and check exiting functionality of the application as well.
- Optimizing the component and check whether the performance of the application increases or not.
- Worked on Agile environment to develop direction and design for new application.
- Added docker containerization in the project (Dockerfile, docker-compose.yml) and CI/CD pipeline using Microsoft azure tool.

FRONTEND DEVELOPER  
07/2021 – 01/2022

Client: DTE ENERGY

Role: Associate Software Engineer

- Ensured that the website and application was fully compatible with multiple web browsers. To maximize user reach and user experience.
- Implemented accessibility features and language localization with help of i18n React Library for language localization
- Employed performance optimization techniques such as lazy loading, image compression, and code splitting to enhance the website speed.
- Designed and implemented internationalization features to support multiple languages, making website to access the global audience.
- Integrated third party APIs and services to enhance the application functionality. (Payment gateways, authentication, etc.)
- Implemented robust security measures, input validation, protection against common web vulnerabilities (e.g., XSS, CSRF) to user data.
- Collaborated effectively with cross-functional teams, including designers, QA testers, developers, and project managers.

PROJECT

- **Food-Order App**  
Built a food order web app where users can select desired items and quantities from the list and place orders.  
**Tools** : Next.js, Reactjs, tailwindCss, react-icons.  
**Deployed:** Portfolio deployed on Firebase platform. **Link:**  
<https://food-order-app-62e05.web.app/>
- **Add Quotes Project**  
Developed an app that allows users to write quotes, which are then stored and displayed on the web.  
**Deployed:** This application deployed on Firebase.  
**Link:** <https://react-router-c1980.web.app/quotes>
- **Portfolio**  
A HTML CSS based SPA which helps others to know me better .  
**Deployed:** This application deployed on Netlify.  
**Link:** <https://m9248portfolio.netlify.app/>
- **Travel Goals**  
A HTML CSS based simple application about famous tourist destinations  
**Deployed:** This application deployed on Netlify.  
**Link:** <https://travel-go-a-ls.netlify.app/>

EDUCATION

Institute of Engineering and Technology DAVV - Indore,M.P.

- Bachelor of Engineering,in Computer Science , 2017-2021 **GPA: 7.01**

CERTIFICATIONS

- **REACT - THE COMPLETE GUIDE (INCL HOOKS, REACT ROUTER, REDUX)**
  - Udemy — 2022 By Academind Maximilian Shwartzmuller
- **100 DAYS OF CODE - WEB DEVELOPMENT BOOTCAMP**
  - Udemy — 2021 By Academind Maximilian Shwartzmuller
- **PROGRAMMING FOR EVERYBODY (GETTING STARTED WITH PYTHON)**
  - Coursera — 2020 By University of Michigan
