Experience

Accenture — Indore, Madhya Pradesh
Software Engineer Analyst

July 2021 – Present

- Assisted in building and maintaining the Intelligent Client Data Verification (ICDV) tool using React JS and RESTful API as the front-end framework and middle layer component respectively. ICDV fetches data from different data providers and displays it for users.
- Utilized Redux for state management, React Router for navigation, Material-UI for building the user interface, Microsoft Authentication Library (MSAL) for secure sign-on, and i18n library for language localization.

Projects

Food Order App - <https://food-order-app-62e05.web.app> 2022
Git Repo - <https://github.com/M-9248/Food-order-site.git>

- Built a food order web app where users can select desired items and quantities from the list and place orders.
- Used JavaScript, ReactJS, CSS, and HTML for front-end development.
- Hosted the app on Firebase and managed the database.

Quotes App - <https://react-router-c1980.web.app/quotes> 2022
Git Repo - https://github.com/M-9248/Quotes_Project.git

- Developed an app that allows users to write quotes, which are then stored and displayed on the web.
- Used JavaScript, ReactJS, CSS, and HTML for front-end development.
- Hosted the app on Firebase and managed the database.

Education
